Kent Fire & Rescue's New Experience: opening Easter 2016

The Road Safety Experience is the first purpose built, interactive centre of its kind in the UK. It uses powerful stories, exciting interactive experiences and information from experienced road safety experts. The aim is to encourage young people to look at the potential consequences of a road accident from all perspectives - for themselves, their passengers, other drivers and their families.

The new centre is at the new Rochester Fire Station. It provides supervised education visits for up to 95 young people per day. It is free to all schools, colleges and youth and community groups in Kent and Medway.

- The centre is predominantly aimed at 14 to 25 year olds;
- The experience has been designed for schools to spend a total of four hours on their visit;
- There is additional educational content that can be used before or after visit;
- The centre will also be available to youth groups.

It is open from April 2016. To book a place, e-mail roadsafetyexperience@kent.fire-uk.org
